

SUMMARY

Cybersecurity Analyst with 2+ years of experience in SOC operations, SIEM alert triage, vulnerability management and identity investigations. Experienced with Splunk, Microsoft Sentinel, Azure AD and ServiceNow, with an MSc in Blockchain Technologies and SC-200 certification.

SKILLS

Security Operations	Splunk, Microsoft Sentinel, SIEM Monitoring, Alert Triage, Log Analysis, Incident Response, Security Monitoring, Incident Documentation, Microsoft Defender, KQL
Blockchain Security	Blockchain Forensics, ISO 27001, Smart Contract Security, Solidity, Cryptography
Identity & Cloud	Azure AD/ Entra ID, IAM, Identity Governance, GCP Cloud Security
Vulnerability & Network Security	Vulnerability Management, Patch Management, IDS/IPS, Network Segmentation, DNS/DHCP, NAT, NAC
Security Analytics & Forensics:	Digital Forensics, Python, SQL, Anomaly Detection, Machine Learning, Isolation Forest, Autoencoders, SHAP

EXPERIENCE

Professional Experience

Hewlett Packard (HP)

Junior SOC Analyst

May 2023 – Dec 2024

- Triageed 30+ Splunk security alerts per shift, investigating event details, identifying false positives and suspicious activity, and escalating incidents according to SOC procedures.
- Investigated Azure AD authentication and account anomalies by reviewing sign-in activity and security logs, escalating suspicious access patterns for further investigation.
- Recorded investigations, findings and escalations in ServiceNow and maintained clear case notes for SOC shift handovers.
- Developed and maintained 12 incident-response runbooks covering common alert types, standardising investigation and escalation procedures

IT Security Analyst | Jul 2022 – Apr 2023

- Conducted monthly vulnerability scans across client infrastructure and tracked remediation actions through completion.
- Improved patch compliance from 67% to 91% over six months through vulnerability tracking and remediation follow-up.
- Monitored SIEM alerts and supported security log analysis, incident documentation and follow-up investigations.

Additional Experience

Tesco

Customer Assistant

Sep 2026 – Present

- Provide customer service and support day-to-day store operations in a fast-paced retail environment.
- Work effectively within a team while managing competing priorities and maintaining high service standards.

PROJECTS

Privacy-Preserving Blockchain Forensics / *Master's Dissertation*

Python, Monero RPC, Isolation Forest, Autoencoders, SHAP, Streamlit

- Built an end-to-end Monero blockchain forensics pipeline extracting transaction behavioural features including timing, frequency and structural patterns.
- Applied Isolation Forest and Autoencoders for anomaly detection across unlabelled transaction data, using SHAP to generate interpretable outputs for flagged activity.
- Developed an interactive Streamlit dashboard for analysing transaction anomalies while minimising exposure of user-identifying information.

Log Detective / *Browser-Based SOC Investigation Game*

React, JavaScript, Vite, Vercel

- Designed and built a browser-based SOC investigation game where players analyse simulated security logs, classify events, and earn XP for accurate threat detection.
- Modelled realistic SOC scenarios, including brute-force attacks, phishing, suspicious PowerShell activity, rogue admin accounts, and ransomware indicators alongside legitimate user behaviour, to sharpen true-positive vs. false-positive judgment.
- Developed the front end with React, JavaScript, Vite and deployed the application on Vercel.

CERTIFICATIONS

- SC-200: Microsoft Security Operations Analyst | 2026
- Junior Cybersecurity Analyst Career Path (Cisco) | 2026
- ISO/IEC 27001 Information Security Associate (SkillFront) | 2026
- Introduction to Digital Forensics (Security Blue Team) | 2026
- Google Cybersecurity Professional Certificate (Google) | 2025
- Introduction to Cloud Identity (Google Cloud Security) | 2025
- Ethical Hacking Essentials (EC-Council) | 2023

EDUCATION

MSc in Blockchain Technologies & Applications — First Class Honours (1:1)

Atlantic Technological University (ATU) | 2025-2026

BSc in Information Technology

Jai Hind College | 2019 – 2022
